[REDACTED] The present report indicates, that the majority of the division departed Perleberg already prior to late April. The units included the 58th Mech Regt with Colonel Bragin (fnu). It could not be determined whether the tanks entrained on 28 April belonged to the tank battalion of the regiment or, possibly, to the 120th Mtrcl Bn. In the latter case, however, there may have been only 10 T-34 tanks. [REDACTED]
